

Australian Speleological Federation Inc. Organisational Chart February 2022

Relationship between ASF and Karst Conservancies

Karst Conservancies

The basis of the relationship between ASF and a KC is one of reciprocal recognition and promotion of mutual objectives, not an assessment of competency. Neither the KC as an organisation nor its members in that capacity are regarded as members of ASF. No fee is payable, and members of the KC are not in that capacity covered by the ASF insurance scheme.

Non-member Groups recognised by the ASF but are not within the ASF

- Sydney Speleological Society
- Savage River Caving Club
- Central Queensland Caving Club

Associates

Organisations which subscribe to the Federation's aims but which are not otherwise eligible for membership may, in accordance with the by-laws, be admitted by the Executive or the Council to Associate status with the Federation.

Not financial-
NSW Cave Rescue Squad,
Landforms and Rehabilitation Team,
